

RESPONSE TO QUERIES AS OF 30.11.17

ISOLA IDEA DESIGN COMPETITION

Dear All, Thanks for your queries. Please find the response in red.

Ques. 1. (MSRIT) 31st October 2017

Are the students of B.Arch 7th Semester allowed to take part in the competition Public spaces for the City?
Yes as long as they are teamed up with a member from the Master's program (Including Environmental Architecture) as mentioned or an ISOLA graduate member.

Ques. 2. (DY PATIL) 2nd Nov 2017

Dear sir/madam

DY Patil school of Architecture, Lohegaon, Pune has two years full time masters of Environmental Architecture. One of our semester is a dedicated planning studio whereby we take up Environmental problems with environmental markers & profiling etc and in another we take up Urban Environmental problems.

Can we as an institute participate? As I can only see 4 faculties of masters are invited, including planning. The competition is regarding Public Spaces for the cities, environmental Architects also have a big role to play in such projects. I hope you would agree. ISOLA is a prestigious organisation anyone would like to associate with and I congratulate you for taking up such a competition.

Definitely, most welcome. We are including this course in the eligibility criteria, as mentioned above.

Ques. 3. (SPA-B) 2nd Nov 2017

Dear sir/madam

I am writing this mail on behalf of my fellow students at SPA Bhopal. We saw the poster regarding design competition '**Public Space for City on move**' and we had some queries. We would be grateful if you could look into them and clarify a bit.

- Is there any registration process we need to be following?
Please fill up the form uploaded in the website as per instruction and include in the submission. An advance email to participate will always be welcome.
- Is it an individual student competition or group of students are allowed to work on a single entry, if latter is the case, what is the number of students permissible in each group.
It can be single or a group entry, maximum number THREE as already mentioned in the brochure.
- It would be helpful if the area in concern/ site could be made more clear. Could we get a site map?
We have uploaded an AUTOCAD plan and a presentation on the website. The detail design should focus on the given site however streetscape strategy, edge delineation and broad design strategy on the district park can be provided.
- Are there any particulars for submission and design requirements?
See submission requirements as mentioned in the brochure uploaded on the website.

Ques. 4. (SPA-B) 7th Nov 2017

Hi,

In the brief, it is mentioned that more information on site can be found in pdf with name

“SITE DETAILS Sector 9 Dwarka”, which is uploaded on the website.

I am unable to locate this pdf. Can i please get a link or the file as an attachment to refer to details?

Please recheck link, the details are all uploaded on the website.

Ques. 5. (Architect from Tamil Nadu) 7th Nov 2017

Hello Sir/Ma'am

I'm Ar. J Sonika, from Tamil Nadu. I would like to know if a team can have one ISOLA registered member and one non ISOLA member.

Thank you

Yes, of course.

Ques. 6. (Recent Graduate) 10th Nov 2017

Can recent graduate also take part in competition?

Yes, provided they are teamed up with a member from the Master's program (Including Environmental Architecture) as mentioned or an ISOLA graduate member.

Ques. 7. (GNDU) 24th Nov 2017

Respected sir/mam,

With due respect I want to say that I have seen this competition poster two days ago. I am an urban designer student pursuing 1st year from Guru Nanak Dev University, Amritsar

I want the details of the site as I am not able to see in the PDF very clearly may be due to its less resolution.

Its also a great pleasure for me if I should get a cadd file regarding the same

Thank you so much for your consideration !

Cad file and a high resolution brochure and site pdf is already uploaded on the website. Please check again.
